

# Daniel's Story

Daniel 1mth old

Daniel's village

Daniel's Mum & Ruth

Daniel Benjamin is another one of our little promise's God has given us at LIA Cambodia. He came to us at twelve days old, he came not yet named and a very small helpless little bundle. So here he is, our Daniel Benjamin to show you all. His mother carried him through her pregnancy in the knowledge she had **HIV AIDS** and was having treatment for it while carrying Daniel and he does not carry the virus. She is another victim of the cruel virus of HIV Aids that is sweeping through this nation like a bush fire. She is thirty-eight year's old. She is alone with no one to care for her. Ruth was made aware of this situation through one of the mother's who's children we have had in our LIA family for four years. This mother assist's Daniel's mum by caring for her as she becomes increasingly weak with this ugly virus. We give assistance to her through LIA's Poverty Assistance Program. LIA's Poverty Assistance program has helped her in food, clothing, and medication to ease her suffering and rent for the land where she lives in a palm leaf shack.... Daniel is now two months old and growing daily. Ruth personally bonds with and has hands on care with each newborn child when they come into our LIA nursery home based on the same premises as Ruth. Ruth knows this is an important part of her call and work in this nation and LIA's helping to bring in the new generation of Cambodia.

Daniel's mother may not have long to live but she wanted her young baby to go to Ruth and LIA so that he could grow up to be a man of integrity and have **"a future and a hope"** Daniel will be given our love and care and we commit ourselves to his welfare.
