

## Our Rabbit Project

Hello dear friends,

Keeping you updated on one of our projects based at the boys home. **“We have Rabbits.”**

This project teaches our boys to take responsibility for living creatures in that they must feed them, care for them and clean out their cages every day. It also goes towards helping LIA to be sustainable and have a small income. Yes you guessed it...we sell these waskily little wabbits for the stewpot. Now I know you country folk know what I'm talking about. Some people have suggested having chickens instead of rabbits but from experience we know that rabbits are far cleaner than chickens. Also rabbits can't fly and they don't get bird flu.....hehe

Our boys are having so much fun, as you can see by the smiles on their faces (in the photos above) and at the same time learning how to look after something given into their care.

We hope to introduce our children to more projects like this one because it encourages them to work together as a team and its a lot of fun too.

Oh what a great opportunity for LIA Growth .. ( you know the saying **“Breed like Rabbits”**)

Blessings to you, in hope of reproduction. (Actually we have just found out we are pregnant ! Not **‘me’** the Rabbits)

Tracey
